1647 Public Participation

A member of the Public advised he was a representative from The Shropshire Union Canal Society (SUCS), a collaboration of charities working towards the restoration of the Montgomery Canal. The tow path is one of the most popular water routes and apart from the last mile into Newtown has been restored. The Society has received favourable comments from local people on the restoration.

He commented the Parish Council is commissioning a coin for local school children and asked what about the adults. King Charles has been heavily involved in the restoration for a considerable number of years and has asked people to do a day of volunteering to celebrate the coronation. He proposed SUCS and ORPC could promote a day of volunteering with a working party over the coronation weekend. A press release has been drafted and he asked for ORPC to put its name and funding towards it. SUCS would be happy to attend the next month's meeting to publicise the weekend and celebrate the completion of the path.

Another member from the Society provided information on the grant application and stated the tow path would not normally be restored at this stage but can bring the improvement works forward with resurfacing and making it more accessible. Previous sections of the canal were funded via lottery money. In essence the SUCS is seeking funds toward the restoration of the towpath and King's Coronation.

Cllr Iain Campbell asked for an end figure for the towpath and Kings Coronation as an ongoing project. The member advised the project was in three phases between Crickheath and School House Bridge and any grant funds would be used towards one of these phases, name phase one, through the housing and wharf by Crickheath.

Cllr Martin Bennett stated this request could be considered as a special case due to the perceived value of restoring a historic artifact of the canal and potential benefit of tourism with every grant decision being based on the evidence presented. Cllr Jones stated the Council had fought hard for listed status for the bridge and to safeguard the Bone Mill with the canal being an important part of Maesbury. Cllr Ian Campbell advised members he has volunteers coming forward to help with water testing and one volunteer advised of a New Equal Plan for Nature. Cllr Bennett advised Cllr Charles Green, from the Area Committee has been helpful with local communities having a say with The River Severn Partnership. There are various flood forums concerned with urban issues and other concerned with the River Severn, all of which report to Shropshire Flood Forum.
