

# Crane Quality Counselling

The Roy Fletcher Centre, 12-17 Cross Hill, Shrewsbury SY1 1JE

18 January 2024

Dear Clerk to the Parish Council

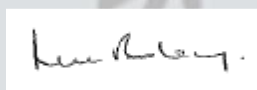

Last year we wrote to your Parish Council to ask for any financial support you felt able to give towards the costs we incur in counselling families facing family breakdown. We now also work with children and teenagers, across the County, of which your Parish Council is part.

Crane Quality Counselling has now been operating for 7 years manned by a team of administration staff and counsellors. The demand for our services has increased greatly and we now have 32 counsellors working with Shropshire families.

We are based at The Roy Fletcher Centre and receive no local authority or Government Funding for the day to day running of the service. We work with individual, families, and of course children who are our future generation, helping with bereavement and mental health and family problems.

We do hope that your committee will feel able to support the professional services of Crane Quality Counselling. Should you require any further information please contact me. I am sure that some of the local families you serve have accessed help from our services.

Yours sincerely

Lin Foley  
CEO
