NATIONAL TEST

Sunday April 23rd 3pm

An Emergency Alert will be sent to all compatible mobile phones.

You'll hear a loud, siren-like sound.

A message on your screen will tell you about the alert.

The system will be used to warn the public in the event of emergencies, such as severe flooding. A message on your screen will tell you about the emergency and how best to respond.

Only the government and the emergency services will be able to send them. If you don't have a mobile phone, you'll still be kept informed through other channels.
